June 2013

## Notice: Nighttime construction near you

### Concrete barrier removal scheduled to begin week of June 17

Construction crews will remove the concrete barrier in the median along northbound and southbound I-405 between NE 70th Street and NE 85th Street in Kirkland (see map at right). Barrier removal work will begin as early as Monday, June 17 and continue for several weeks.

This work is needed to shift traffic to the center lanes and establish work zones in the outside lane as part of ongoing work to widen I-405 between Bellevue and Bothell.

### Barrier removal noise

In an effort to balance the varying needs of commuters and residents, and ensure safety and efficiency for our crews, this work will occur during daytime and nighttime hours, Monday through Friday.

Crews will work to minimize noise and other disruptions. However, neighbors can expect noise from equipment used to remove and haul away the barrier, such as back-up alarms used for safety, concrete-breakers, engine noise, and trucks entering and exiting the work area.

### Center median reconstruction

Crews will also continue reconstructing the center median area (see map at right) between SR 520 and NE 116th Street by:

- Installing drainage improvements.
- Installing electrical components to support the new express toll lane system.
- Placing new asphalt pavement.

*Median work will continue for the next several months and will take place during both daytime and nighttime hours.*
